

FAKOLITH[®]
Food Contact &
Hygienic Coatings

Your specialist in Food Contact coatings

**Direct
contact**

INNOVATIVE SME

Valid until Jan 21st 2025

**Indirect
contact**

Mainly for packaging made of:

**Paper and
cardboard**

**Flexible
films**

**Wood
and MDF**

**Find out how we
can make a
difference together**

- ⊕ 60 years since Fakolith Farben was founded in Germany.
- ⊕ 30 years since the initial founding of Fakolith Spain.
- ⊕ 15 years since the expansion and transformation into Fakolith Chemical Systems.
- ⊕ 10 years as a European Innovative SME, from Tortosa.

We innovate in official and private R&D&I projects seeking the ideal balance between:

- **Food safety and security**
- **Functionality and compatibility**
- **Sustainability improvements**

We believe in open innovation and cooperation with the food packaging value chain.

We manufacture with our own brands, under private label for third parties and/or as a toll/manufacturing service, collaborating with confidentiality at any stage of our know-how:

- Formulation, development and future evolution.
- Manufacturing with Sanitary Registration / GMP / HACCP.
- Collaboration in packaging certifications.
- Adjustments and tests in application equipment.

We collaborate with the entire value chain:

- Leading technology centers.
- Leading suppliers in innovation and sustainability.
- Manufacturers of inks and other materials.
- Specialized consultants.
- Converters and printers.
- Machinery manufacturers.
- Food processing industry.
- Sanitary inspection and quality certifications.

Contact us

Pioneers in Food Contact

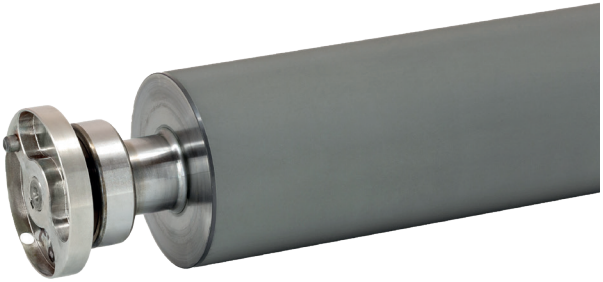

After the appearance of EU Regulation 10/2011, we were pioneers in Europe in the research, development, GMP manufacturing and correct certification of coatings for direct and indirect contact with food and beverages according to EU and/or FDA, on multiple surfaces in the food industry, giving birth to this specialized division, which has achieved **important milestones for the food sector, and now also in specialties for food packaging:**

- Our plant in Tortosa has **Sanitary Registration** ES-39.005259/T for materials in direct contact and ROESP E-0043-E.
- We work with **transparency with inspection**, traceability and good manufacturing practices, being the only ones in the sector with a **HACCP implemented**.

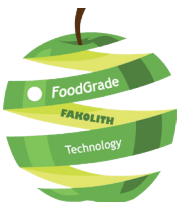

Compliance Declarations published on website

- Record number and date of inspection by the Health Authority.
- Regulations that we comply with as a manufacturer.
- Tests of global migrations and/or extractions that determine the food groups and under which conditions of contact time and temperature it is suitable.
- Specific migration tests, different according to type of formulation.
- Organoleptic tests to avoid odor and flavor alteration in foods.
- Other tests: antimicrobial resistance, physical-chemical resistance, Cobb, compatibility, etc...

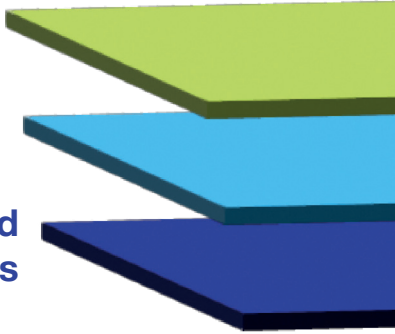

Through our brands and technologies we offer certified multi-purpose coatings:

Our solutions are growing:

Primers
Functional coatings
Barrier and overprint varnishes

Functionalities as well:

Organoleptic conformity

Water barrier

Oil/Grease barrier

Heat resistance

Mineral oil barrier

Heat seal

Reworkability

Management System
ISO 9001:2015
